Introducing Lacework:
Elevate Your Cloud Security

Protecting Your Cloud Environment Against Risks and Threats

SOMERFORD   LACEWORK

Our Partnership:
Empowering Secure Cloud Environments

Somerford Associates and Lacework join forces to deliver cutting-edge cloud security solutions. Together, we offer comprehensive assessments and advanced technologies to safeguard your valuable cloud infrastructure.

Lacework Cloud Security Assessment Benefits:

Accelerate Compliance Audits

Efficiently navigate compliance audits for frameworks such as HIPAA, PCI DSS, NIST, ISO, SOC2, and CIS. Gain full visibility into your cloud infrastructure and management plane activity.

Enhanced Visibility and Risk Prioritisation

Onboard cloud configuration and activity data from AWS, Azure, and GCP in minutes. Identify configuration issues and prioritise risks to quickly plan and remediate.

Achieve Compliance and Governance

Leverage ML baselining and automated anomaly detection to identify vulnerabilities across cloud infrastructure and services. Visualise component views and ensure misconfigurations are identified and remediated.

Mitigate Risk and Strengthen Security

Obtain total compliance risk reporting and governance over cloud data and infrastructure assets. Establish robust security frameworks and policies for improved risk management.

Cloud Security Assessment on AWS Marketplace

LACEWORK   SOMERFORD   aws marketplace

Our CSA provides a complimentary and in-depth assessment of your AWS infrastructure and data-related assets, identifying misconfigurations, vulnerabilities, and hidden threats within your cloud footprint. With the help of our expert consultants, we will guide you through addressing these findings and improving your security posture.

Benefits of the CSA:
- Mitigate risk through visual component views
- Accelerate CNAPP security posture
- Select an ongoing cloud risk and security posture platform
- Establish regular automated scans and reporting
- Obtain full governance and control over cloud data and infrastructure assets
- Achieve data compliance and security
