SOMERFORD
Delivering Innovation

Somerford Associates in the UAE
Executive Summary

Somerford Associates is a prominent IT consultancy and technology solutions provider, specialising in large transformation programmes, delivering against complex cybersecurity challenges and driving data innovation and management to support adoption of AI capabilities and services. Established with a mission to deliver innovative technology solutions, we partner with leading software vendors to provide tailored services that address complex business challenges.

Somerford Middle East Computer Systems Trading LLC (Somerford ME) is a wholly owned subsidiary of Somerford Associates, registered and headquartered in the United Kingdom. Somerford ME is a full licence and registered mainland company of Dubai, UAE. The company was formed in July 2023 as part of the Somerford Associates expansion into the UAE and has been successful in securing large scale transformation programmes of work.

In line with its strategic growth and increasing global demand, Somerford Associates established Somerford Middle East Computer Systems Trading LLC, a dedicated subsidiary located in the United Arab Emirates. This regional presence enables Somerford to better serve clients across the Middle East and North Africa (MENA) by providing localised expertise, responsive support, and strong in-country partnerships.

The Middle East entity is fully aligned with Somerford's core values of integrity, innovation, and customer-centricity. With an experienced team and robust operational infrastructure, Somerford Middle East is poised to play a significant role in supporting digital transformation and cybersecurity initiatives across the region, while upholding the global standards and reputation of the Somerford brand.

Key Metrics

Cybersecurity

Threat Detection and Response:
Advanced threat detection and response solutions to protect organisations from cyber threats. These solutions help in identifying, mitigating, and responding to security incidents effectively.

Identity and Access Management:
Ensuring secure access to critical systems and data is a priority, providing comprehensive identity and access management solutions to safeguard sensitive information.

Data Management

Data Integration and Analytics:
We assist businesses in integrating diverse data sources and leveraging analytics to gain actionable insights.

Data Governance:
Offering robust data governance frameworks to ensure data quality, compliance, and security, helping organisations manage their data assets efficiently.

Cloud Computing

Cloud Strategy and Migration:
Providing strategic consulting for cloud adoption, helping clients transition to cloud environments smoothly. Their services include cloud architecture design, migration planning, and execution.

Cloud Security:
Ensuring security in the cloud is critical, offering cloud security solutions that protect data and applications in cloud environments, adhering to best practices and regulatory requirements.

Partnerships & Technologies

Somerford Associates are experienced in delivering secure, scalable, and innovative technology to both public and private sector organisations, including Defence. Renowned for its technical excellence and consultative approach, Somerford has established itself as a trusted partner for enterprises seeking to enhance digital resilience, streamline operations, and maintain compliance in a rapidly evolving threat landscape.

We work with a carefully selected portfolio of globally recognised technology partners, enabling the delivery of comprehensive solutions that span cybersecurity, cloud transformation, identity management, and observability. Specialising in tailoring end-to-end solutions that address complex enterprise challenges, ensuring seamless integration and long-term value.

Client-Centric Approach

Understanding that each client has unique needs, Somerford adopts a client-centric approach. We focus on delivering customised solutions that align with the specific requirements and goals of our customers. This approach ensures maximum value and satisfaction.

Industry Recognition

Somerford Associates has garnered recognition for its expertise and excellence. Their commitment to innovation, quality service, and client success has established them as a trusted partner for many organisations.

We collaborate with industry-leading technology vendors detailed below. These partnerships enable us to deliver cutting-edge solutions and stay ahead in the rapidly evolving technology landscape.

splunk> a CISCO company | VARONIS | netskope | securiti | HashiCorp | Delinea | Chainguard | okta | BlueVoyant

KnowBe4 | Security Scorecard | Island | aws marketplace | sosafe | mnemonic | CONFLUENT

Conclusion

Somerford is known for expertise in cybersecurity, data protection and management, and cloud computing and has a strong focus on innovation and client satisfaction. Somerford continues to help organisations navigate the complexities of modern technology environments and achieve their business objectives.
